DETAILED ACTION

In Paper No. 9, applicant cancelled all of the claims subjected to Restriction Requirement (Paper No. 7) and added new claims that do not corresponds to any of the groups in Paper No. 7.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 113-114 in part, 115, 117-124 in part, drawn to method using SEQ ID NO:6 as the main active ingredient, classified in class 424, subclass 184.1.
- II. Claims 113-114 in part, 116, 117-124 in part, drawn to method using SEQ ID NO:7 as the main active ingredient, classified in class 424, subclass 184.1.
- III. Claims 113, and 125 drawn to method of using two active ingredients , i.e., protein and DNA , classified in class 424, subclass 184.1.
- IV. Claims 127-144, drawn to gene therapy, classified in class 514, subclass 44.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are different methods requiring different active products with different molecular structures and different biological properties.

These inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification. The search required for each of the above inventions is not coextensive with regard to the literature and the sequence searches. Further, a reference which would anticipate the invention of any one group would not necessarily anticipate or make obvious the any of the other groups. For these reasons, restriction for examination purposes is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
